[1] HOW TO DOWNLOAD AND INSTALL

MetaTrader 4: Trade Forex at any time, at any place!

From your Android device visit the Google Play store and find the MetaTrader 4 application. To download the application, simply click the **"Install"** button found in the top right side.

The application will be automatically downloaded and installed onto your phone. If you are trying to download the application from your personal computer, make sure have your phone connected vou to the PC using your Android data cable.

[2] NAVIGATING WITHIN THE PLATFORM

Within the Android Trader there are 5 main sections you will need to familiarize yourself with.

These are:

- **Quotes** = List of instruments with their current bid/ask rates.
- Charts = Shows the price movement of a selected currency pair.
- **Trade =** Shows your open positions' details such as profit, balance, equity and free margin.
- **History** = Shows your trading and balance history.
- **Application Menu** = Allows you do all the necessary actions within the application such as open/close positions and add new trading accounts.

[3] APPLICATION MENU

* This is the most important menu on the application.

16:36 🖼 🖻	NE I	₩ <u>₩</u> .II 97%

Account Information

Account Type: The base currency for your account Leverage: Your desired leverage Deposit: Your initial starting account balance.

[4.3] REMOVING AN ACCOUNT

Load the application menu by selecting the options button on your smartphone and click on "Accounts". All you connected accounts will be displayed with their relevant information such as server, account number and name.

Simply select the account you wish to remove and click delete. Our platform will automatically remove it from the application.

[5] QUOTES TAB

Quotes tab displays the list of instruments with their bid and ask rates. You can place orders and view the chart for each instrument in the list. You can always add or remove any available tradable instrument so that you can create your own personalized list.

[5.1] Removing an Instrument

Open the application menu and select the **"Symbols"** option. To remove an instrument click the **"Trash Can"** icon on the top, select the instruments you wish to remove and tab **"Delete"**.

[6] CHARTS TAB

Charts section displays the price movement of an instrument within a given time period. Zooming can be done by moving your fingers vertically (zoom-in) or horizontally (zoom-out). To view the chart on a wider scale, simply turn your smartphone on a landscape mode.

Using the menu bar on the bottom will give you the ability to shift between your instruments, time period and change chart types. You can select and view only instruments that have been previously added in your Quotes lists. Chart types available are bar chart, candlestick and Line chart.

[9] TRADING

[9.1] OPENING A NEW POSITION

To trade within the application, open up the application menu and click on "New Order". Proceed by select your instrument and volume (lots). Lastly choose your execution type ("instant", "buy/sell stop" or "buy/sell limit").

Keep in mind that only instruments that are in your Quotes section will be displayed so make sure you add them in your list before trading.

In the follow-up screen you can setup a stop loss or take profit values, deviation and decide whether to **"Buy"** or **"Sell"** by clicking the corresponding button. Your request will be sent and a confirmation screen will appear.

[9.2] CLOSING A POSITION

Select the **"Trade"** tab to view your open positions and select the order you wish to close. In the menu that will appear on the order, select the **"Close Order"** option.

Review and confirm your request by selecting "Close Buy" or "Close Sell" respectively. Upon completion of the request a confirmation screen will appear. You can always go back and check on closed positions by visiting the "History" tab.
